### Things I Can't Live Without

**Josh** It probably will sound crazy because there are a lot of things to save data on now, but I think my flash drive is the best. I take it with me everywhere and can use it on any computer. It's also a good way to back up my files.

**Becky** I couldn't live without my tablet. I have a lot of apps on it, but my favorite is a drawing app. I don't have to get out paper and a pen because I do everything on the touch screen.

**Enrique** My phone is my life! It has all my contacts, photos, and email. I have it with me all the time. I know it sounds a little crazy, but it's my way of keeping in touch with the world all day and night!

**Diana** We spent so much money on phone calls before we discovered online video and calling apps. Now it's free to keep in touch with my family. My daughter moved to Japan last year, and we talk online almost every day.

**Tom** My navigational system is the best! I drive all over, and I don't have to look at maps now. And it'll tell me if there are any problems on the roads. You hear stories about how people follow the directions even when the system is wrong, but it works well for me most of the time!
